

TEN WAYS TO CREATE GREAT GOLF FOURSOME KEEPSAKE PORTRAITS

- 1) Remember, we deliver at the tee so your guests will be sure to receive their group keepsake portrait.
- 2) To make sure your corporate memory sticks, remember to email us a 300dpi JPG file of the logo for us to include on the print.
- 3) If you have a really big VIP (sports or political figure) we can photograph all foursomes before they start (about 1/2 hour of shooting) so that your golfers & VIP can hit the links.
- 4) Make sure we have the title of your event (name, venue & anniversary (5th Annual, 30th annual, etc) information with the JPG so it may be included ON the print with your logo.
- 5) Make sure there is electricity within easy reach. So, look at the 1st hole and the 9th hole where there are bathrooms (source of electricity.)
- 6) To help cover costs, consider having a corporate sponsor of the foursome portraits with their business' logo on the print.
- 7) Our tables should be on-site, covered and in position at least two (2) hours in advance. They are the first thing we work with.
 - 5) We'll need approximately 14amps of electricity.
- 8) Your guests will have their portrait made before they tee off, then receive their portrait after they finish. The photo station is fast and efficient and will not slow down your groupings.
- 9) Depending on your event's tone, having a VIP at the tee can add to your event (ie: a model or product rep with samples.)
 - 10) Sit back, relax, and let us get to work!
